EXPERIENCE

Full Stack Developer

Rankfast by Coursenator Pvt. Ltd.

🗓 05/2023 - Present   📍 Delhi (Remote)

Role and Responsibilities:

- Seamlessly integrate frontend and backend development using Next.js, Node.js, and MongoDB, emphasizing performance, scalability, and security.
- Enhance digital marketing capabilities by creating and maintaining 40+ SEO tools & real estate tools with third-party APIs like Google Search Console, staying abreast of SEO trends for continuous innovation.
- Improve website layouts for responsive design and usability, updating web elements to enhance visual appeal and user experience. Customize WordPress sites for clients, ensuring high-quality deliverables aligned with client specifications.
- Foster cross-functional collaboration with marketing, design, and development teams to align development with SEO and content strategies. Ensure seamless integration of new features and enhancements.

PROJECTS

Job Portal for South Film Industry

📍 Technobase IT Solutions Pvt. Ltd.

🔗 https://talentkind.in/

The job portal dedicated to the South film industry comprises three distinct modules: Talent, Employer, and Institute.

- Contributed to the frontend development of the Talentkind web platform.
- Implemented React components and Material-UI for the user interface, focusing on modern design and user experience.
- Leveraged React's component-based architecture to streamline development and enhance code reusability.
- Integrated Material-UI components to ensure a consistent and visually appealing UI across the platform.
- Employed responsive design techniques to guarantee optimal display on various devices and screen sizes.
- Collaborated closely with designers and backend developers to seamlessly integrate frontend components with backend services.
- Employed state management solutions like Redux or Context API to efficiently manage application state.
- Worked in tandem with the QA team to identify and address frontend bugs and issues during testing phases.
- Maintained a clean and scalable codebase by following established best practices and coding standards.

EXPERIENCE

Software Engineer

Technobase IT Solutions

📅 03/2023 - 05/2023　　📍 Nagpur

Role and Responsibility:

- Utilize React.js and Material-UI to design and develop user interfaces, maintaining graphical standards and brand consistency for web applications.
- Implement responsive design principles, ensuring optimal performance across mobile and desktop platforms through scalable UI components and CSS/JavaScript frameworks.
- Identify and resolve frontend issues across browsers and devices, optimizing application speed and scalability for bug-free user experiences.
- Develop reusable frontend code and libraries, integrating business logic and functionality using React.js to meet project requirements.
- Lead a group of junior front-end developers by managing the project schedule, assigning duties wisely, and offering mentorship and advice to build skills and guarantee project delivery on time. This will ensure consistent team performance.

React Front End Developer

Nonstop Corporation

📅 07/2021 - 02/2023　　📍 Nagpur

Role and Responsibilities:

- Construct robust user interfaces with React.js and Next.js maintaining high industry standards.
- Develop responsive features using HTML5, CSS3, JavaScript, jQuery, and Bootstrap for consistent experiences on mobile and desktop.
- Enhance product functionality through API integration with third-party libraries, ensuring reliability and performance.
- Implement advanced SEO strategies to boost website visibility and traffic, optimizing content for improved search engine ranking.
- Ensure browser compatibility across platforms, addressing any issues to enhance user experience.
- Design and update web layouts to meet usability and performance benchmarks, aligning with user expectations and design trends.

Web Developer Intern

Auroinfo Pvt. Ltd.

📅 12/2020 - 05/2020　　📍 Bhuvneshwar (Remote)

Role and Responsibility:

- Perform code reviews and debugging to ensure seamless functionality across devices, browsers, and operating systems, enhancing user experience and accessibility.
- Design engaging and responsive website layouts with modern JavaScript frameworks, HTML5, and CSS, prioritizing usability and design standards.
- Implement custom JavaScript and HTML solutions to enhance website interactivity and functionality based on project requirements.
- Identify and rectify website bugs and issues to optimize functionality and minimize downtime, improving user satisfaction.
- Conduct comprehensive functionality tests to verify user interactions and data processing, ensuring reliability and consistent performance.

AWARDS
